FINANCIAL AND COMMERCIAL.

MONDAY, June 12-6 P. M. The speculative spirit on the Stock Exchange ha shown increased strength to day in a more active and shown increased strength to day in a more active and higher market. At the first board New York Central closed 2½ higher than at the first board on Saturday, Erie 1½, Reading ½, Michigan Southern 2½, Illinois Central ½, Cliveland and Pittsburg 2½, Rock Island 1½. Fort Wayne ½, Quicksilver 1¾, Cumberland 3½. Ohio and Mississippi certificates declined ½. Government securities were heavy under the European newscoording five-generalise at 67 a 67% on the ondon stock exchange on June 2. Coupon five-twenties declined %; ten-forties, however, were firm at 96%. but at the second board they were a fraction New York Central closed at a decline of %, as ompared with the first board, Illinois Central 🐔 Rock Island ¼, Cumberland ¼. Erie was ¼ higher, Reading ¾, Cleveland and Pittsburg ¼, Fort Wayne ¼, Ohio and ississippi certificates 36, Quicksilver 134. Government securities were dull, and ocupon five-twenties experienced a further decline of 1/4. Coupon ten-forties re-

the resignation of Mr. John M. Tobin as president of the road, and an effort was made to depress it on sellers' op-tions. At the second open board, however, it was strong at 104%, in sympathy with the general market. New York Central sold at 94 (b.3), Eric 79 a 78%, Reading, 931/4 a 1/4, Michigan Southern, 651/4 a 65, Cleveland and Pittsburg 67 a 68, Northwestern 2634 a 34, Fort Wayne 9536, Ohio and Mississippi certificates 2534, Cumberland 4234, Quicksilder 5534. Afterwards, on the street, the market was firm, and at five P. M. Erie was quoted at 79 a 34, New York Central 94, Hudson River 10434,

Reading 93½, Northwestern 26½, Fort Wayne 95½.

The chief interest of the day has centred upon the gold market, which opened with a strong upward tendency. The closing quotation on Saturday night was 137%, and the highest point reached to-day 141, an advance or 314. The fluctuations from hour to hour were

expectation of a further advance in our securities abroad, and another the conviction in well informed minds that in any case the premium must go higher. At the same time the return of mere five-twenty bonds for sale by the steamers which arrived to-day assisted the natural tendency of the market.

Foreign exchange has been very firm at advanced

rates. Leading drawers have asked 110% for their sixty days bills and 111 a % at short Mercantile bills have sympathized, and sales made at 109% a %, but owing to their extreme scarcity the transactions in them are necessarily few. The reduction of the Bank of England rate of dis-count to three and a half per cent may have conduced in ome degree to the increased firmness of the market, it the prospects of our foreign trade are such as to lead to the expectation of still higher rates. Although money is very cheap in Fugiand at present, it will not continue so if the Indian cotton failures, which are follow-ing each other in rapid succession, result in that of panic; and it seems probable that we shall soon hear of a turn for the worse among a number of commercial a great extent, associated with the East India trade ruinous cotton speculations is evident from the latest commercial reports from India, which are full of expressions of apprehension. The depots teem with cotton, upon which the holders have sustained tremendous losses, and how the large ces between past and present prices are to be met without further bankruptgies it is difficult to discern. In eems imminent; but as to its severity it would be pre-nature at this distance to speculate. It must be, hower, remembered that whatever unfavorably mercantile and monetary affairs in Europe cannot be pro-ductive of good tous. By further depressing prices abroad it would shut us out more effectually than we are at present from a market for our produce, while by increas-ing the financial necessities of people in business it would expose us to the danger of a sudden return of our securities for realization.

The money market continues casy at five per

cent on call, with a better demand. Many lenders sak six, but while there are some transactions at this rate there are many based upon government collaterals at four. The bank state-2,865,873 in specie. There is a decrease also of more han two millions in loans and nearly a million and a half in deposits. The discount line is dull, and strictly first class paper is quoted at 6% a 7 per cent, the second

grade being taken at 7% a 9. ing held to-day the following gentlemen were ensuing year:—C. Vanderbilt, D. Thomas Vail, John M. Tobin, H. F. Clark, James H. Banker, O. Charlick, Augustus Schell, William H. Vanderbilt, John Steward. Joseph Harker, Smith Barker, Jr., M. H. Sanford, Dean

At the same meeting the following resolutions were adopted upon the retirement of Mr. John M. Tobin from

the presidency of the road:

SECRETARY'S OFFICE,

HUDSON RIVER RAILROAD COMPANT,

NEW YORK, June 12, 1865.

JOHN M. TORIN, Esq., President Hudson River Railroad

Company:—
Srs.—I take great pleasure in handing to you the accompanying copy of the minutes of the Board of Directors of the Hudson River Railroad Company, adopted this day. Very respectfully, yours,
THOMAS M. NORTH, Secretary.

Mr. Clark, from the special committee appointed at the last meeting, submitted the following report:

Mr. John M. Tobin having stated at the last meeting of this board that the year for which he had undertaken the discharge of the duties of President was about expiring, and that it was his determination not to become a candidate-for re-election to the office of President, the committee to whom the matter of this announcement was referred respectfully report the following resolutions:

commuse to whom the matter of this announcement was referred respectfully report the following resolutions:—

Resolved, That the thanks of this company are due to Mr. Tobin for the manner in which he has discharged the duties of the office of President for the past year. We recognize that his administration of the office has been characterized by diligence, by fidelity and by the host attractivities of the office has been characterized by diligence, by fidelity and by the host attraction has been expenses, resulting from the extravagant prices of labor and materials which have prevailed, he has, nevertheless, so conducted the affairs of the company that upon his relinquishment of office he can congratulate the stockholders of the company upon its condition of unprecedented prosperity. He has carried out many measures of reform which have largely contributed to the economy of management and to the general welfare of the company. His administration has been so successful, and his personal demeanor has been so uniformly unobtrustive, courteous and kind, so to make appropriate this special acknowledgment of his valuable services, which we tender to him with the expression of our earnest wishes for his future prosperity and happiness.

Resolved, That the Secretary transpart to Mr. Tobin a
